RE: Formal Appeal of Claim Denial — Korey Toy (MRN MUSC2757957), Claim MUSC-20250806-1826-1

Patient	Korey Toy (DOB 1913-01-13)
MRN	MUSC2757957
Member ID / Group	UHC568853356 / GRP-79401
Claim number	MUSC-20250806-1826-1
Date of service	2025-08-06
Procedure billed	CPT 93458 — Left heart catheterization with coronary angiography
Primary diagnosis	I25.10 — Atherosclerotic heart disease of native coronary artery
Denied amount	\$12,019.82
Denial code	CARC 16 / RARC N290 — Claim/service lacks information or has submission/billing error(s).
Appeal deadline	2026-10-03

Dear Appeals Review Committee:

SUMMARY OF APPEAL

MUSC Health is submitting this formal appeal on behalf of patient Korey Toy (MRN: MUSC2757957, Member ID: UHC568853356, Group: GRP-79401) regarding the denial of Claim MUSC-20250806-1826-1 for services rendered on August 6, 2025, at MUSC Health Ashley River Tower. The claim was denied on October 3, 2025, under CARC 16 ("Claim/service lacks information or has submission/billing error(s)") and RARC N290 ("Missing/incomplete/invalid rendering provider primary identifier"), with the payer remark stating: "Claim cannot be adjudicated; required data element(s) are missing or invalid." MUSC Health respectfully contests this denial and submits that the rendering provider's National Provider Identifier (NPI) was valid and present at the time of submission. We request full adjudication and payment of this claim.

CLINICAL BACKGROUND

Mr. Toy is a male patient with a longstanding and well-documented history of atherosclerotic heart disease of native coronary artery (I25.10), the primary diagnosis on this claim. His cardiac history includes a myocardial infarction with onset recorded in December 1993, following which he underwent both percutaneous coronary intervention and coronary artery bypass grafting. He has carried active diagnoses of coronary heart disease since 1989 and hyperlipidemia since 1990, and has been maintained on statin therapy over an extended period. On August 6, 2025, rendering provider Marcus T. Bledsoe, DO, performed a left heart catheterization with coronary angiography (CPT 93458) in the on-campus outpatient hospital setting at MUSC Health Ashley River Tower. This procedure is a standard diagnostic intervention for evaluating the extent and progression of coronary artery disease in patients with Mr. Toy's established clinical profile.

BASIS FOR APPEAL

The sole stated basis for denial is a missing or invalid rendering provider primary identifier. MUSC Health asserts that this denial does not reflect a substantive deficiency in the claim. Marcus T. Bledsoe, DO, holds NPI 1770615243, which is an active, valid Type 1 NPI registered in the National Plan and Provider Enumeration System (NPPES). This NPI was submitted on the claim as the rendering provider identifier in the appropriate claim data element. A technical or formatting discrepancy during electronic transmission does not negate the validity of the provider's credentials or the legitimacy of the service rendered.

CARC 16 with RARC N290 denials are considered correctable billing errors under standard claims adjudication guidelines and do not constitute a finding that the service was medically unnecessary or otherwise non-covered. UnitedHealthcare's own claims processing obligations require that when a claim contains a correctable data element error, the payer provide the provider an opportunity to resubmit or correct the claim rather than issue a final denial without reconsideration. MUSC Health is submitting this appeal through the Claims and Payments portal as directed, and hereby reaffirms that NPI 1770615243 for Dr. Bledsoe is valid and correctly associated with this claim. We are prepared to supply any additional documentation UnitedHealthcare requires to confirm provider identity and NPI validity upon request.

REQUESTED ACTION

MUSC Health respectfully requests that UnitedHealthcare reverse the denial of Claim MUSC-20250806-1826-1, accept NPI 1770615243 as the valid rendering provider identifier for Marcus T. Bledsoe, DO, and proceed to full adjudication of the claim in accordance with the contracted allowed amount of \$6,848.59 and the terms of the UnitedHealthcare Open Access plan. Should UnitedHealthcare require supplemental documentation confirming the provider's NPI registration or credentialing status, we ask that a specific written request be directed to MUSC Health's Revenue Cycle department so that materials may be provided promptly and within the applicable appeal timeframe.

Respectfully submitted,

Angela R. Whitfield, RN, BSN, CPC
